SUMMARY

Full Stack Web developer with a background in operations and sales management. Graduate of Northwestern Coding Boot Camp as well as holding a BA degree in business management with a minor in media marketing. As a full stack web developer I will leverage my strong management skill-set with new web development and programming techniques. I have a strong curiosity for new tools, programs and technologies along with a passion for creating new applications and collaborating with others.

WORK EXPERIENCE

Division Manager, Neiman Marcus | Chicago IL | 2014-2020

- Oversees group sales channels, including all business analytics and development for 3 separate luxury retail division's whose sales profits exceed 20.0+ million dollars annually.
- Established key partnership alliances with multiple vendors to maximize sales growth, strengthened client loyalty and devise an exclusive product platform in the Chicago metro market.
- Led overall recruitment and development of 25+ sales associates and 5+ entry level managers in areas of sales productivity, omni channel selling, client retention/growth strategies and marketing.
- Collaborated with software development teams to pilot and roll out new mobile selling applications, allowing all sales teams to generate mobile sales transactions for online/in-store products in real time.
- Developed and implemented strategic custom "memo" business across all sales divisions, resulting in a 23% profit increase over last year.

Achievements/Quantifiable Data

- ☒ Neiman Marcus Overall Top Company Sales Manager of the Year, 2018
- ☒ Neiman Marcus Overall Top Company Communicator of the Year, 2018
